

Letter of Intent

City Promotion, as the International Economic Promotion department of Barcelona City Council, has one of its objectives to identify and attract foreign investment, assists these investment projects to establish, grow, contribute to the creation of quality employment and become part of the local enterprise ecosystem, among others.

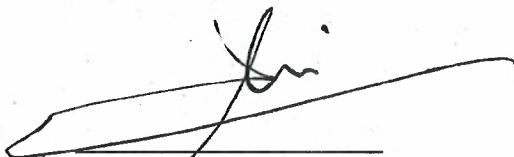

Huawei Technologies España, S.L. CIF B84136464, recognized at the forefront of ICT companies worldwide is established in the city of Barcelona, offering more than 1,000 local job creations across Spain. It is actively committed to innovation, R&D, and constantly looking for new cutting-edge initiatives to collaborate the overall economic projection of the city.

Both parties have agreed to strengthen and explore opportunities of collaborations in the application of new technologies in urban areas and the quality of life. Examples of possible collaborative initiatives can be: 5G Barcelona European initiatives, SmartCity Use Case Initiatives, Advanced investigation and development through Supercomputing and Artificial Intelligence (AI) to enhance city Digital Transformation, etc.

These projects could contribute to the city of Barcelona, i.e. attraction of highly qualified talents, improve local job vacancy creation, consolidate the city's position as a world-class research centre, as well as to improve the overall economy.

Barcelona, 19 November of 2019.

Signed by:

Mr. Jaume Collboni
First Deputy Mayor
Economy, Enterprise Competitiveness & Finance
Barcelona City Council

Mr. Sun Fuyou
VicePresident
Enterprise Business Group
Huawei Technologies
